synaptome.data

November 11, 2026

`synaptome.data` *synaptome.data: AnnotationHub version of Synaptome.DB*

Description

The package provides access to the public copy of the Synaptic proteome database. It was designed as an accompaniment for `synaptome.db` package. Database provides information for specific genes and allows building the protein-protein interaction graph for gene sets, synaptic compartments, and brain regions. not intended for direct access. All querying and analysis is supposed to be performed via `synaptome.db` functionality.
